## 1. Introduction

### 1.1 About E&I Cooperative Services

E&I Cooperative Services (E&I) is the only member-owned, non-profit sourcing cooperative exclusively focused on serving the education community. Established in 1934, E&I is governed by its Board of Directors, a group of procurement professionals elected by the membership to provide oversight and ensure the Members' needs are addressed and met. E&I's membership includes public and private universities and colleges, community colleges, other affiliated members, K-12, and teaching healthcare facilities throughout the United States.

By leveraging the knowledge and purchasing power of its nationwide membership, E&I delivers innovative sourcing solutions that align with its Members' sourcing strategies. E&I's extensive contract portfolio featuring industry-leading Suppliers provides Members significant cost savings and supply chain efficiencies without the need to conduct their own RFPs.

To comply with Members' procurement requirements, E&I is committed to utilizing procurement and business practices in accordance with the National Association of Educational Procurement Code of Ethics. Its primary goals and objectives are to: (1) assist Members to obtain the absolute lowest cost and best value that exceeds other public sector consortia agreements, (2) establish a strategic sourcing partnership with awarded Suppliers, and (3) enhance E&I's position as the premier sourcing cooperative for education.

### 1.2 Purpose and Intent

The purpose of this Request for Proposal ("RFP") is to solicit proposals from qualified Suppliers for Campus Delivery & Logistics Solutions. A qualifying Supplier(s) is expected to be either the manufacturer/provider or a fully authorized dealer/reseller for any of the products and/or services it proposes. Proposed products and/or services shall equal or exceed the quality level of industry standards and comply with applicable federal, state, and local technical, environmental, and performance standards and specifications. The scope of this RFP includes but is not limited to all major service areas needed to provide delivery and logistics solutions for Members such as express and small-package delivery (domestic and international); freight transportation (less-than-truckload (LTL), full-truckload (FTL), bulk goods, palletized freight, liftgate, inside delivery); and customs brokerage for import/export shipments. **Respondents are not expected to be able to provide all of the scope areas for this RFP and may provide a response for one or more of these scope areas at their discretion.**

As a result of this RFP process, E&I intends to establish a Master Agreement ("Agreement") with one or more awarded Suppliers to serve as a procurement vehicle for Members to acquire Supplier's proposed products and/or services. The initial term of the Agreement term shall be for five (5) years with a renewal term up to five (5) years. The Agreement will incorporate the terms and conditions of this RFP and the awarded Supplier's proposal. Some Members may require Supplier to comply with additional terms mandated by their states' laws and regulations after award.

Unless an authorized dealer/reseller independently submits a proposal, a manufacturer/provider may propose to authorize one or more of its dealers/resellers to provide products and/or services under its awarded Agreement. Under those circumstances, the manufacturer/shall be liable for their dealers/resellers' actions and omissions.

### 1.3 Member Participation

E&I currently has over 6,400 Members, comprised of approximately 62% public and 38% private institutions, as well as academic healthcare and research institutions. By satisfying the above Member needs, E&I anticipates significant Member purchases under a resulting Agreement(s), representing a substantial opportunity for growth in these markets.

The Agreement(s) will be posted on E&I's website, password protected and available only to Members. Members will review the Agreement offering, pricing, and terms and conditions, and determine their individual participation as their needs arise. Membership should not be construed as any form of commitment under the Agreement by Members. E&I makes no representation on behalf of its Members that any quantities will be purchased or that services will be utilized.

## 4. Scope of Products and Services

E&I is seeking proposals that will provide comprehensive campus delivery and logistics solutions encompassing three primary scope areas: (1) Express & Small-Package Delivery (domestic and international), (2) Freight Transportation (from LTL to FTL, including bulk and specialized deliveries), and (3) Customs Brokerage Services (for import/export).

### 4.1 **Respondent Discretion - Respondents are not expected to be able to provide all of the scope areas for this RFP and may provide a response for one or more of the following scope areas at their discretion:**

#### 4.1.1 **Express & Small-Package Delivery (Domestic & International)**

- This category covers courier services for documents and small parcels, both within the U.S. and globally.
- Supplier should offer multiple service levels – e.g., overnight, 2-day, and economy/ground shipping – to meet varying urgency needs. Supplier should be able to integrate with a Member's campus mail or receiving operations, to facilitate daily pickup from campus mail centers or departments and provide an online system for shipment requests and tracking.
- Key Deliverables: include real-time tracking and proof-of-delivery, the ability to handle hazardous or perishable materials shipments (common in research universities) by following proper regulations, and reliable international shipping with customs documentation assistance.
- Performance Expectations: high on-time delivery rates (with clear commitments for each service level, e.g. 98% on-time for overnight), minimal loss or damage (and a clear claims process if issues arise), and excellent coverage (ability to ship to all U.S. states and internationally to all Member institutions or field sites).

#### 4.1.2 **Freight Transportation (LTL, FTL, and Specialized Freight)**

- This encompasses shipping of large or heavy goods ranging from less-than-truckload (LTL) shipments (e.g. a single pallet or crate) to full-truckload (FTL) moves (e.g. an entire 48' or 53' trailer of goods). This scope area requires handling of bulk goods, palletized freight, and equipment typical in higher education (i.e. furniture, lab equipment, bulk supplies).
- Suppliers must provide accessory services like liftgate-equipped trucks for locations without loading docks and inside delivery to specific campus buildings or labs. If a shipment is heavy or oversized, the supplier is expected to coordinate the delivery so that it arrives at the right campus location and is placed as needed (which could involve inside delivery to an office or installation site).
- Members may also need freight forwarding and logistics for international cargo – for example, coordinating an international ocean or air shipment that needs trucking to campus after customs. Both scheduled recurring freight (like regular consolidated deliveries to central warehouses) and ad hoc one-off shipments (like a one-time delivery of a piece of research equipment from a vendor) are potential services Members may request.
- Key Deliverables: route planning and scheduling assistance, secure handling and tracking of shipments (e.g., PRO number tracking for LTL), and a process for freight insurance/claims (in case of damage or loss, which is a crucial aspect for expensive equipment).
- Performance Metrics: on-time pickup and delivery rates, average transit times for common lanes, and a record of claims frequency and resolution time.

#### 4.1.3 **Customs Brokerage Services (Import/Export)**

- Provide end-to-end customs clearance and trade compliance support for a Member's international shipments.
- Act on behalf of Member to ensure that any goods shipped across borders (incoming or outgoing) clear customs efficiently and in full compliance with all regulations.
- Prepare and submit all necessary import/export documentation (e.g., customs entries, commercial invoices, packing lists, licenses or permits for special items); calculate and facilitate payment of duties, tariffs, and taxes on imports; and provide guidance on tariff classifications and regulatory requirements (such as advising on correct Harmonized System (HS) codes, Export Administration Regulations (EAR)/ International Traffic in Arms Regulations (ITAR) export control considerations if a Member ships research instruments, etc.).
- Coordinate the final delivery of imported goods after clearance – for example, arranging the transportation from the port or airport to a Member's campus, often in partnership with a freight carrier.
- Key Deliverables: timely customs clearance for shipments (meeting or exceeding typical clearance benchmarks, e.g., same-day clearance for express shipments, 1-2 days for ground freight entries), compliance reports or audit support (helping the

Member during customs audits or providing reports on all import/export activities), and expert advice on import/export scenarios (such as guiding a Member department through paperwork for importing a new piece of scientific equipment or exporting an item temporarily for a conference).

#### 4.2 Pricing

Suppliers are expected to submit a **detailed pricing proposal** that clearly itemizes all costs, fees, and underlying assumptions. Pricing will be evaluated not solely on the absolute cost, but on overall **value, transparency, predictability, and total cost of ownership**. Proposals will be assessed against a structured evaluation framework that includes service quality, operational capability, technology, compliance controls, implementation approach, and demonstrated customer success.

Through this competitive process, our objective is to select one or more partners who can provide the level of service, innovation, and accountability necessary to strengthen members' logistics operations, enhance customer satisfaction, and support our Member's mission with long-term reliability and strategic value.

#### 4.3 No Exclusions

E&I recognizes any one Respondent may not carry or provide the scope specified herein in its entirety. Respondents may submit a proposal for one or more of the products and/or services outlined above.

Respondents may also include additional products and/or services that add significant value beyond the scope of this RFP. Value-added products, services and solutions included can be offered for E&I's consideration.
