Outcomes over Tech

Ferrilli follows the outcome. Many firms can provide IT support. Fewer have the vision, capability, and knowledge to see the big picture: how the right technology can accelerate a path to true transformation and success.

We go further, and we understand that while the right technology is important, the outcomes that the software allows you to achieve is what really matters. It's what separates software resellers from software consultancies, and it's what separates Ferrilli from the 'we-only-do-it-one-way' pack.

FERRILLI

We are as committed to improving student outcomes as you are. We'll help you use technology to optimize those outcomes.

SOLUTIONS NOT SERVICES

Though Ferrilli is a provider of technology-backed services. We aren't just a services provider. We are 'bigger than tech' and we operate as any good consultancy would: strategic, high-touch, and in the trenches from day one.

WE ARE HIGHER ED

The strength of our team stems from our backgrounds in the very institutions we serve. We've been the Admissions Director who knows they need to increase their applications but doesn't know how to go about it. We've been on the inside and know where the value is hidden among your institution's complexity.

When true professionals are needed, when you need someone who has walked in your shoes, Ferrilli is the first call.

WE'RE NOT HAPPY IF YOU'RE NOT HAPPY

A consulting partnership with Ferrilli starts with confidence, and our money-back guarantee takes away the specter of "what if it doesn't work out?" Every company says they're built on a foundation of trust - we stake our money on it.

THE BEST TECHNOLOGY IS THE ONE THAT IS RIGHT FOR THE INSTITUTION

The education technology consultancy industry is rife with "The One True Way" fallacy: regardless of what you need, our technology solution is the right one. We are tech-agnostic and we're only interested in solving your specific problem rather than selling you a specific software suite.
