**MAINTENANCE MATTERS.**

In an educational facility there are very few areas where painted substrates don’t take a pounding. Stairwells, hallways, lockers, classrooms, cafeterias, gyms – no place is off limits to wear and tear. The PPG Paints Maintenance Team understands these needs and is here to help with:

- Dedicated Maintenance Sales Specialist
- On-site consultations with problem area identification and tailored product solutions
- Facility Paint Maintenance and Operating Binder documenting both product and color
- Development of specifications that meet performance and budget requirements
- Standardized solutions that drive efficiency

**COLOR EXPERTISE**

Assigning different colors for hallways not only serve as directional cues but also engage the senses. Colors that reflect nature are more restorative and energizing than colors reminiscent of urban landscapes. At PPG Paints, we offer:

- Professional Color Renderings
- Color Standardization & Consistency

The PPG Paints brand is available at more than 2,400 company-owned stores and independent dealers nationwide.
PRODUCT SELECTION

Several key considerations need to be taken into account when selecting the appropriate paint products:

- Areas where fast turnaround times are needed to ensure minimum disruption
- Areas where zero or low-VOC and low-odor products are required like classrooms, hallways, and other common areas
- Exterior areas subject to the harsh effects of the weather like facades, entry ways and stairways.
- High traffic areas that take physical abuse like hallways, stairways and entryways
- Areas that need to withstand rigorous cleaning procedures such as hallways, locker rooms and classrooms

Visit ppgpaints.com for more product information and technical data sheets or to find a store near you.

SPEEDHIDE® FAMILY OF PRODUCTS
