MULTI-PURPOSE
PARTITIONS
MityLite Partitions offer flexible solutions for room set up and design that meet today’s changing workplace needs.

**ALL MITYLITE PARTITIONS ARE:**
- Useful for permanent or portable room set up
- Low-profile and sturdy with construction that helps dampen noise
- Competitively priced
- Backed by a 3-year warranty
- Stain-resistant panels with popular color options

**PARTITIONS ARE PERFECT FOR:**
- Hospitality
- Public Assembly Spaces
- Government Offices
- Educational Environments
- Hospitals/Clinics
- Worship Facilities
**Hinges**
Unique hinges help keep partition panels in a straight line, regardless of length. Link panels to increase length and create sliding doors.

**Fabric Surface**
Available in popular colors and useful for hanging objects such as artwork, photos, flat screen monitors, and dry erase boards.

**Sound Dampening**
Fabric construction reduces room noise.

**Locking Casters**
3-inch, dual wheel locking casters won’t mark flooring.

**Customization**
Options include a variety of heights, widths, colors, and panel materials for any environment.
VersiWall Partitions

VersiWall is a revolutionary sliding room divider that serves as an expandable and portable partition. It provides the perfect high-quality and cost-effective space-dividing solution. The panel design features stabilizers making VersiWall more sturdy than other room dividers on the market. The casters won’t mark up floors, and they provide a low clearance for additional noise reduction and a lower center of gravity. The aluminum frame is lighter than partitions with steel frames making VersiWall easy to move and set up.

VersiWall panels can be attached to one another to help you create a wall of any length. Each panel easily contracts for easy storage.

The sound-dampening fabric comes in several color options and the surface accepts pushpins to hang a variety items. The polycarbonate plastic panel options are easy to clean and available in several colors and translucencies.

**PRODUCT FEATURES**

1. Lightweight, aircraft aluminum frame is easy to move
2. Double-lock caster wheels hold the partition in place
3. Fabric surface can be used to tack items, such as papers, to the wall
4. Polycarbonate surface option is easy to clean and ideal for healthcare
5. Easy-to-use and set up with telescoping hinges and no required tools

**FABRIC OPTIONS**

- Ocean
- Charcoal Gray
- Beige
- Cloud Gray
- Powder Blue
- Latte

**POLYCARBONATE OPTIONS**

- White Opaque
- Gray Opaque
- Clear Translucent
- Dark Gray Translucent

VersiVide Partitions

**VersiVide** features an exclusive design that provides unparalleled versatility for a variety of room set up options. The patented 360-degree rotating hinges offer a full range of movement for each panel. The panels can be molded into a variety of shapes including a C-shape, L-shape, or a straight line. Link multiple units together with the attached velcro connectors for increased length. The lightweight, aircraft aluminum frame construction provides greater portability and security than heavy steel dividers. Low-profile casters and full-sized end panels provide stability, safety, and acoustical control.

The sound-dampening fabric comes in several color options and the surface accepts pushpins to hang a variety items. The polycarbonate plastic panel options are spray-cleanable and available in several colors and transluencies.

**PRODUCT FEATURES**

1. Lightweight, aircraft aluminum frame is easy to move
2. Double-lock caster wheels hold the partition in place
3. Accordion-style design can be formed into any shape
4. Fabric surface can be used to tack items, such as papers, to the wall
5. Panel seams are constructed from radiused extruded aluminum to prevent a pinch point when rotating
6. Polycarbonate surface option is easy to clean and ideal for healthcare

VersiFold Partitions

VersiFold offers an attractive and affordable option for creating unique spaces in classrooms, offices, and for commercial events. The folding panels rotate to accommodate a variety of arrangements. The flexible hinges are easy to open and close and provide stable and vertical movement for each panel. The partition slides with ease across uneven flooring with durable, rolling casters that offer a 2.5-inch ground clearance. The full-sized end panel (on each unit of the four panels) provides added stability. Each of the 2-inch thick fabric panels work to dampen sound.

Available in 3 different height options of up to 12 feet and in lengths of more than 19 feet, this articulating partition can cover large areas.

**PRODUCT FEATURES**

1. Accordion doors provide unparalleled arrangement and flexibility
2. Easy-to-use folding hinges
3. Powerful 20-lbs rare earth magnets connect the panels
4. Acoustical ribbed fabric is 2-inch thick to absorb sound
5. End runners made with high-density polyethylene

VersiFlex® Partitions

VersiFlex® offers privacy and shielding for a variety of creative space possibilities. Constructed from a low-density polyethylene foam core and uniquely engineered recyclable fabric, these partitions are lightweight, durable, and acoustically absorbent. Independent laboratory testing showed VersiFlex absorbed 80% of sound from frequencies common to the human voice (residential interior walls were only rated at 30%). VersiFlex fabric walls are compatible with Velcro®.

**PRODUCT FEATURES**

1. Lightweight aluminum frame is easy to move
2. Powerful 20-lbs rare earth magnets connect the panels
3. Hinges are made of high-density polyethylene
4. Low profile or flush with floor for increased privacy and noise reduction
