Single-use sanitizing protection

Meets CDC recommendations for alcohol content

Our daily routines have come to depend on hand sanitizer for additional protection. The convenient 0.25 oz. packets are ideal for single-use application. A great option for student or staff use throughout the day. 62% ethyl alcohol meets CDC recommendations. Order in cases of 400.

Item No. 1116161

Benefits of using hand sanitizer

- Helps prevent the spread of germs when containing at least 60 percent of alcohol
- Convenient and essential on the go protection
- Perfect solution to complement the washing of hands with soap and water
