

Sustainable Waste Management Solutions

For thirty years, [Antos Environmental](#) has been providing consulting and services focused on sustainable, environmentally-conscious waste management solutions. Antos has helped hundreds of institutions implement sustainability strategies to significantly reduce their environmental footprint and save millions of dollars in the process.

From waste stream evaluation to regulatory compliance assessment, training & education programs, waste cost management, sustainability compliance, and more, Antos is the leader in supporting your institution's green goals.

Contract Highlights:

- Free consultation
- No risk, gain-share service model for qualified members
- Exclusive E&I member discounts and rebates
- Feasibility studies
- Implementation planning & standard consulting
- Project management for waste services
- LEED consulting and training
