

D2L
DESIRE2LEARN

Transforming the Way the World Learns

D2L, the creator of the Brightspace Learning Management System (LMS), provides E&I members with a solution to make learning more personalized and help drive improved learning outcomes from one comprehensive, affordable, and easy-to-use platform. Brightspace combines the powerful tools, services, and support you need to deliver a best-in-class teaching and learning experience—in one convenient package.

Brightspace is a secure and reliable LMS that works consistently on any computer, tablet, or mobile device. Comprehensive tools help administrators and staff stay flexible while giving time-constrained instructors more power to teach. Brightspace also offers the unique ability to support advanced learning delivery techniques such as competency-based education and project-based, linear, blended, and fully online learning.

Contract Highlights:

- Flexibly designed to support all users from a single platform
- Adaptive design seamlessly responds to different devices, no matter the type or size
- Real-time mobile app gives students a complete picture of tasks, timelines, and updates
- Fully customizable system to mirror an institution's personality, branding, roles, and organization structure
- Native analytics enable teachers and students to understand how and when an achievement happens
- Cloud services with 99.9% uptime for anytime, anywhere learning
- Always have the latest version via continuous delivery
