Key Features

Forecasting and Analysis

Create reliable and defensible long-term forecasts to help with policy and target setting.

Agency Budgeting

Set budget targets and base levels by agency and fund. Collect all required data and narrative for submissions.

Executive and Legislative Budgeting

Review agency submissions and manage parallel or sequential tracks for Executive and Legislative budgets, all securely stored.

Personal Budgeting

Forecast personnel costs by position, employee, and occupation code by pay period.

Publishing

Create print capable digital budget books and update content or data in real-time throughout the year.

Spotlights

Budget Management

Manage in-year forecasting, distributed variance analysis, and budget amendments with ease.

Spending Plans

Break out your budget into allotments or plans, with tools for in-year analysis and control.

Capital Programming

Build multi-year project budgets with flexible funding sources, subprojects, phases, and line items.

"The most intuitive and functional solution, for both administrators and users on the market today. The exceptional customer service is unlike any other company, software or otherwise, and it is for these reasons that the City of Fresno would recommend this product to any and all ther municipalities!"

Scott Motsenbocker

Budget Manager City of
Fresno, CA
