

COMPLEAT Expenses

Expense management
that's built for control.

Every business needs better visibility into spend, and fewer hours wasted chasing receipts.

Expenses gives your finance team real-time control and makes claiming and approving expenses faster, easier, and completely paperless.

What does Expenses do?

Real-time expense tracking

Stay on top of every claim from submission to approval with full visibility and audit history.

Automatic enforcement

Prevent non-compliant claims with built-in rules and real-time alerts at the point of entry.

Accurate mileage calculation

Point-to-point tracking and verification ensure every journey is fair and policy-compliant.

Interactive dashboard

Drill down into spend categories, approval times, outliers, and forecast future claims with ease.

Mobile app

Snap receipts, submit claims, and approve from anywhere — all in under 30 seconds.

Card matching

Automatically match receipts to card transactions and generate error-free reports.
