

## Green Initiatives Analysis

We can reduce HVAC Energy costs by up to 30% and waste by up to 50%.

Filt-Trac looks and catalogs every filter you have on site and is able to make efficient, sustainable filter solutions depending on your situation.

We look at MERV ratings, Dust Holding Capacity, Resistance to Air Flow, Media Quality and Media Depth when surveying your facility to make sure you get the most efficient and sustainable filter solutions available.

The **Green Initiatives Energy Analysis** we perform on your facility will show you several unique filter options that control and cut:

- Energy Costs
- Filter Costs
- Lanfill Impact
- CO2 Emissions
- Filter Count

From this you will be able to see different filter options and choose which one fits your needs better.

### Filt-Trac Log Sheet Breakdown

Filters are separated by building, location and unit.

Creates accountability by recording who changed filters and when.

Building: <b>NAB</b>		Cost Center:	
Location: <b>1ST FLOOR MECH RM</b>		INVOICE GRP 2	
Unit: <b>AB-6</b>		Boxes: <b>1</b>	
Qty	Filter	Schedule (Month)	
4	16 X 24 X 2 FLEAT	JAN, JUL.	
1	16 X 16 X 2 FLEAT	JAN, JUL.	
1	16 X 20 X 2 FLEAT	JAN, JUL.	
4	20 X 24 X 2 FLEAT	JAN, JUL.	
NOTES			
Date Serviced	Misc.	Filters Changed By	
<small>           FILTRATION CONCEPTS            "Not Just Filtration, Filtration Solutions"            3847 50th Street            Lubbock, Texas 79424            (800) 687-5996 (806) 788-1796 Fax (806) 799-2374         </small>			

Indicates how many boxes of filters this building has.

Tells you the Quantity, Filter size and Frequency for this building, location and unit.

Notes tell you which rooms, or specific areas the filters go in, speeding up the installation process and making sure nothing is missed.

## Filtration Concepts

makes the entire process of dealing with air filters easier, faster, more efficient and sustainable.

# What We Do

## Supply

- 30 years of supply
- Just In Time
- Warehouse Management
- Easier Filter Updates
- Reduce Total Cost Of Ownership
- Install Filters With Accuracy
- PM Management
- No Bulk Purchases

## Sustainable

- Reduce HVAC Energy Costs By up to 30%
- Reduce Waste By up to 50%
- Energy Analysis
- Spend Less Time Installing Filters
- Extend Your Filter Life by 100%
- Buy Less Filters
- IAQ and Energy Efficiency Balance

## Solutions

- On Site Survey
- Easier Installation
- Easier Receiving
- Sustainable Filter Options
- Accurate AHU CFM Readings
- Custom Clips, Fasteners, Frames
- Change Less Filters
- Premium Indoor Air Quality
- Low Energy Costs

## Support

- Non Stop Customer Service
- Easier Updates
- Every Filter Has A Name & Address
- Filt-Trac Log Sheets
- Constant Communication
- Air Filter Innovation
