FreeFit™ height adjustable tables allow you to incorporate healthy movement into your workday. Move freely from sitting to standing to support the task at hand. FreeFit has a “whisper quiet” sound insulation option that makes adjustments as quiet as a library. The table can be used individually or in conjunction with Global desks.
Freedom to fit anywhere

The freestanding, universal design of FreeFit integrates easily into an array of workplace layouts. A mobile option with casters adapts to today’s flexible office configurations.
See how it works

Table operates at 1.5” per second
