PRODUCT SELECTION

DENTAL UNIT

WATERLINE TREATMENT PRODUCTS

Advantages

Introducing treatment tablets and cartridges to keep your waterlines **safe and compliant**.

Two-Cartridge System

The two-cartridge system's total active antimicrobial released over the course of 1 year (or 240 L) treats waterlines with **40% greater power** when compared to single cartridge systems.

Tablets

The tablets **exceed the ADA and CDC standards for clean water by 50X**.

Simply place tablet(s) in your empty dental unit water bottle every time you refill it with water.

Let us help you choose the right product for your practice.

Trust Henry Schein® Brand products for daily waterline treatment to ensure your patients' safety. Be sure to follow the proven 3-step protocol:

1. Shock
2. **Treat daily**
3. Test quarterly
