

CENMED OVERSEES SMALLPOX ANCILLARY

Government healthcare organization looking for seamless operation for their smallpox testing kits.

ORGANIZATION DETAILS

CDC is the nation's leading science-based, data-driven, service organization that protects the public's health. For over 70 years, they've put science into action to help children stay healthy ; help families, businesses, and communities fight disease and stay strong; and to protect the public's health.

Industry: Government

Company Size: Approximately 15,000 personnel

Location: 60 country offices; 6 regional offices

CHALLENGE:

Engage SMB to manage smallpox testing ancillary kit and assemble in an environmentally controlled facility.

GOAL:

Build a partner network of certified SNBs to identify components and assemble kits.

SOLUTION:

Create and manage a seamless collective of integrated independent companies to assemble the smallpox ancillary components into a resealable container while assuring GMP certification compliance.
