

CENMED HELPS IMPROVE SPECIMEN COLLECTION

Regional area hospital struggled with their kitting operation.

HOSPITAL DETAILS

NYC Health + Hospitals is the largest municipal health care system in the US. They provide essential inpatient, outpatient, and home-based services to more than one million New Yorkers every year in more than 70 locations across the city's five boroughs.

Industry: Healthcare

Company Size: 43K Health Care Professionals

Location: 70+ Locations in New York

CHALLENGE:

Managing multiple locations with disparate specimen collection and testing processes.

GOAL:

Create uniformity throughout 11 acute care hospitals, 5 nursing homes, 6 diagnostic and treatment centers, and 70+ locations.

SOLUTION:

Expand specimen collection device options, develop standardized collection kit(s), create clinician user guide, and consolidate purchasing SOP and cost-savings via volume discounts.
