

CENMED FINDS COST-EFFECTIVE SOLUTION

Local regional hospital system looking for a better way to collect specimens.

HOSPITAL DETAILS

Westchester Medical Center provides local residents with acute care services – adult and pediatric Level I trauma and burn care; organ transplantation; highest-risk OB-GYN care; a Comprehensive Stroke Center and more. Their mission includes providing the highest quality care for all residents.

Industry: Hospital

Company Size: 13,000 personnel, 3,000 attending physicians

Location: 9 hospitals on 8 campuses

**Westchester
Medical Center**

Westchester Medical Center Health Network

CHALLENGE:

Minimize the level of effort required by clinicians to collect multiple specimens.

GOAL:

Find a cost-effective solution without the need to re-engineer a completely new kit.

SOLUTION:

Create a custom self-contained urine specimen collection kit comprising an evacuated closed system, (e.g. the base BD Vacutainer®), collection system and added an additional specimen collection component.
