- LMS (Ellucian and 3rd party)
- Degree Works
Mythics Ellucian Banner Move and Improve Approach
The Mythics Move and Improve Approach begins with a full review and assessment of your Institution’s current environment. We will work with you to review organizational drivers and evaluate your organization’s needs. Our Assessment Response will deliver deployment options and tailor the implementation strategy to your Institution’s unique goals.

Plan and Design
• Produce project plan for instantiation, migration, testing and Go-Live based on assessment and Institution’s goals and current projects / deliverable and timelines.
• Conduct joint workshops delivered side-by-side with your Institution’s key resources. Mythics will perform a complete assessment of Institution’s environment including Banner and all peripheral applications.
• Layout shapes, sizes, and storage file systems

Build and Migrate
• Build tenancy and components
• Build environments
• Instantiate new database and other applications to appropriate virtual and/or bare metal servers (determined by comprehensive assessment)
• Move application, database, and enabling technologies using most appropriate technologies

Test
• Test application(s) in new environment for functional and technical success
  • Batch testing
  • Performance Testing
  • Testing Interfaces (inbound and outbound)
  • Test Online Transactions

Deploy and Transition
• Promote Instance Lifecycle (clone / refresh)
• Go-Live (cutover)
• Support (varying levels of support available for infrastructure and Banner application)

Mythics Move and Improve Tools and Methodology
Licensing & Support Cost Savings Across All Oracle Environments
• Cloud elasticity, delivering on demand scale up or down

Advanced Topologies
• Options for Performance and High Availability

Production Cut-Over to Cloud Infrastructure
• Phased Cut Over
• Reduced Critical Production Down Time
• Hybrid Cloud Solutions

Automated Operations
• Reduced Cloning Time
• Reduced Refresh Time

Mythics is here to help guide your migration. Contact the Oracle experts at Mythics today!
