

From concept to closeout, Nouveau gets the job done.

Nouveau Construction and Technology Services is one of the fastest growing Job Order Contractor in the United States. Nouveau invests in each project's upfront development to ensure all projects are completed on time, within budget, and with the utmost quality. This upfront work minimizes the need for field changes, helps contain surprises, and ensures each project runs smoothly and efficiently.

Contract Highlights:

- Experienced E&I partner with complete understanding of members' long term goals and vision
- Construction services for all types of renovations, facility repair, deferred maintenance, and ground-up construction for new facilities
- Technology services to include Ethernet and fiber optic cabling, distributed antenna systems (DAS), automatic transfer switching, emergency code blue telephone systems, and system consulting and design
- State-of-the-art project management software

A woman-owned business, Nouveau manages an active outreach program in the small, woman owned and historically underutilized business (HUB) community. They currently maintain a nationally recognized Women's Business Enterprise Certification (NWBE) and a HUB certification in the State of Texas. Nouveau's NWBE certification is recognized in all the States covered by this contract with the possibility of expansion into other states as the company continues to grow.

For more information, visit www.eandi.org or contact your [E&I Member Relations Representative](#).

This contract was the result of a competitive solicitation - E&I's RFP #683318, and is available to E&I members in the state of Texas only..
