

On Campus Relocation Services

Supporting Universities Post COVID-19

As schools adapt to the latest social distancing guidance, we can help you manage the reconfiguration of your office, dorm, or meeting space as well as any workstation modifications — including staging, removal, transportation and storage.

Our team can arrange these, or other, turn-key solutions to meet your needs in a post-COVID-19 environment:

- Repositioning and removal of furniture to accommodate appropriate distancing
- Consolidation and storage of excess fixtures and furniture
- Installation of safety partitions/shields in high-contact areas
- Warehousing and distribution management of PPE (Personal Protective Equipment)

We are here to help you access:

- Comprehensive range of logistics services
- Nationwide network of transportation and service providers
- Extensive local labor resources and capabilities
- Broad experience servicing demanding, time-sensitive transportation and warehousing needs
- 16 million square feet of temporary or long-term storage capacity

We have the experience and network resources to support you going forward.
