Ouriginal is an educational technology company providing an industry-leading text similarity detection and plagiarism prevention solution to secondary and higher education institutions worldwide.

Ouriginal’s cloud-based plagiarism prevention system is fully automated, utilizing advanced machine learning to deliver unparalleled accuracy for coverage and usability. A text-matching system is combined with author metrics for the ultimate originality check, quickly generating a comprehensive plagiarism report with detailed results. The solution is highly scalable and integrates seamlessly into your current workflow, whether through a learning management system (LMS) or standalone. Ouriginal works with major LMSs, including Canvas, D2L’s Brightspace, Google Classroom, and Moodle, as well as the Microsoft Teams communication platform.

Contract Highlights:

- **Preferred contract pricing** for E&I members.
- **All-inclusive pricing model** for system integration, training, ongoing support, data transfer, and enhancements.
- **Cloud-based architecture**—Microsoft Azure.
- **Three decades of combined strengths, experience, and expertise** in plagiarism detection for education from the merger of two leading providers: Urkund and PlagScan.
- **Author metrics create student profiles**; the system automatically checks to ensure all metrics match the original profile, easily detecting ghostwriting, essay mills, etc.
- **Compliant with Section 508 Standards** requiring a fully-accessible solution for all students, faculty, and administration.
- **Full compliance with strict GDPR data privacy requirements** protecting the intellectual property of students and instructors.
