Mailing Technology Solutions Powered by a Century of Expertise

For over 100 years, Pitney Bowes has helped campuses of all sizes meet their immediate shipping and mailing needs and stay ahead of the curve in the fast-paced world of modern commerce. From remote mailing and shipping software to contactless delivery options and presorting services, Pitney Bowes offers a host of ways to modernize your processes.

Pitney Bowes understands each member’s specific challenges and offers solutions that help realize savings and deliver a superior campus experience. Their team of higher education experts helps you navigate the complexities of mailing and shipping to ensure success today, tomorrow, and in the future.

Contract Highlights:

- **Smart Locker Solutions:** ParcelPoint™ is a self-service delivery innovation designed and built to provide a superior, contactless experience, eliminating the need for interaction between people to ensure a safe, secure, and convenient package pickup.

- **Package Receiving Solutions:** SendSuite® helps you track, monitor, and deliver with confidence, simplifying your processes with receiving software. Available in the cloud or on-premises, it is designed to provide accurate state and complete visibility of packages as they move across your organization with a simple barcode scan.

- **Outbound Shipping Solutions:** SendPro® Enterprise streamlines your shipping operation and creates a tailored process for your campus. This intuitive multi-carrier shipping software is designed to take shipping operations to the next level in cost management, process efficiency, and compliance, and offers a single source to help anyone across campus make smarter shipping decisions.
