

Field and Pavement Marking

Field Marking

Let SherStripe® be your MVP on natural grass and artificial turf.

- Tintable to a full range of colors
- Bright White formulation with optical brighteners for high visibility
- Aerosol and bulk paint options for easy application and durability

Pavement Marking

Freshly marked pavement improves curb appeal and safety.

- Line striping, traffic and zone marking coatings
- Stencils and tools to meet local and national standards

Marking Equipment

Equipment for small practice fields to large parking lots.

- Manual push stripers
- Ride-behind units for high-production marking

SHERWIN-WILLIAMS®

School Maintenance Solutions

Gym Floors

The gym is a centerpiece of your school — make sure it shines.

DuraSeal® DuraClear® Polyurethane Gloss

GREENGUARD-certified finish with lower VOCs, less odor and reduced ambering. Use as a maintenance coat or with DuraSeal® Fast Dry Sanding Sealer for full resands.

Masterline® Polyurethane Gloss

Our most popular, easy-application finish. Apply as a single-coat maintenance finish or with Masterline® Quick Dry Sealer for full resands.

Pair with Sherwin-Williams Pro Industrial™ coatings for line striping and custom designs.

Flat Roofs

Protect your school's investment by extending the life of your roof.

Kool Seal®

The complete line of silicone, elastomeric and asphalt roof coatings, patching compounds and repair tapes improves waterproofing and longevity.

UNIFLEX® Fluid Applied Roofing Systems

Designed for larger restoration projects, these systems create a seamless, durable finish that extends the life of your existing roof while reducing energy costs.

From small repairs to large-scale restorations, Sherwin-Williams products keep your roof in top condition.

Lockers and High-Touch Surfaces

Keep busy spaces looking great through the constant wear and tear.

Pro Industrial™ Pre-Catalyzed Waterbased Epoxy

Engineered for high-exposure areas, this single-component acrylic epoxy combines durability with easy application by brush, roll or spray.

Pro Industrial™ High Performance Epoxy

Two-component epoxy with excellent durability and chemical resistance.

Pro Industrial™ is a full line of epoxies, urethanes and acrylics to protect all of your high-touch surfaces

Concrete

Even the toughest surfaces need maintenance.

H&C® Concrete Sealers

Ideal for courtyards, walkways and other vertical concrete surfaces.

Loxon® and ConFlex™ Water Repellents

Protect stadium bleachers, outbuildings and other concrete and brick structures.

Adhesives Technology Crack Fillers and Bonding Compounds

Epoxy and polyurea formulations offer fast, durable repairs on horizontal and vertical surfaces.

Pair protective coatings with crack fillers, bonding compounds and other repair materials for concrete and masonry.
