Sit to Stand.

Put students in control with the desk that can adapt to any learning situation. The UXL Sit + Stand student desk is a welcome addition to any collaborative environment. Specify 4-6 to create an engaging learning zone, or outfit the entire classroom for the ultimate flexible learning environment. Featuring a unique adjustable column that floats from 26 inches to 42 inches with the press of a lever, this student desk truly adapts to any learning situation. At its lowest height students can choose to use a standard 16” or 18” height chair.

Planner® Studio.

These sophisticated 29”h, 36”h and 40”h tables meet the demanding needs of your creative spaces, without the pared down “shop-class” aesthetics.

The urban industrial style allows for crossover application in media centers, active learning spaces, common areas or any space that encourages collaboration and social learning. Standard with heavy duty 4” dual-locking casters for easy mobility. Tops come in three options 1 1/4” thickness with a 3mm flat edge or choose butcher block in 36x72 size. Legsets are finished in a choice of five colors: Apple, Cerulean, Charcoal, Orange or Platinum.

FEATURED PRODUCTS (FRONT):
- Planner Studio 48x72 Tables
- Cascade with Peg Board Side Panels
- Plato 24” Fixed Height Stools
- Cascade Mega-Case w/ Tote Storage
- OODLE™ Active Seating
- Acrobat Computer Stations
The Makerspace

Making the most creative spaces.

The makerspace is an incubator for problem solving, creativity and collaboration. Here, the learning process starts with students identifying problems or needs. The next step is to conceptualize original objects to meet those needs. Ideas are discussed, evaluated and modified before the design stage. With this variety of activities taking place, often simultaneously, it makes sense to create spaces within the makerspace that accommodate quiet, individual work as well as group work and construction.

This variety of activities also calls for versatility from your makerspace furniture. It’s fitting that designing and furnishing a makerspace is analogous to the projects the students undertake, just on a bigger scale.

FEATURED PRODUCTS:
- OODLE Active Seating

CRISSCROSS BASE

Smith System®
Supports student-centered learning.

To visualize a model for a Commons environment, think about the last time you were in a coffee shop or computer/technology store – the kind of place where kids feel relaxed and receptive. You probably observed kids playing with devices, enjoying beverages and snacks, discussing, learning, hanging out and being themselves. It’s this type of environment educators seek to recreate in order to foster similar types of camaraderie and collaboration.

**FEATURED PRODUCTS (FRONT):**
- Interchange Multimedia Tables
- Plato Fixed-Height Stools
- Cafe Tables (42” Round + Large Oval)
- Chat Chairs and Chat Wedge Tables
- Huddle-8 Desks
