Preparing them for the future.

During college, a student’s future starts coming into focus. Learning doesn’t slow. It grows deeper and more complex. Educators strive to teach what employers demand of the next generation: critical thinking, team collaboration and problem solving.

Smith System snapshot for Higher Education:

• **Versatile.** The subject and teacher will influence the layout. But keep classroom furniture highly mobile so that students can quickly tuck-in their tables, get comfortable, and get to work.

• **Choices.** Simulate the flex-seating movement that began in office spaces. Offer traditional chairs, café-style seating, soft seating, rockers and more. Then let students pick where they learn best.

• **Right Size.** Adjustable tables, chairs and desks keep everyone comfortable. Be mindful of plus-size students, too.

• **Aesthetics.** Match their maturity with subdued colors, but with a touch a school spirit. Durable, high-quality crafting keeps furniture looking good.

• **Teacher Tools.** Keep expensive teaching tools mobile, secure and tidy. Look for workstations, lecterns, maker carts, whiteboards and storage on wheels.
