

## Streamline the Student Journey from the Inside Out

**Thesis America** offers a focused and standardized approach to solving higher education's core student administration issues. The company's CAMS, QL, EMS, and SM product lines meet the administrative requirements of mid- to large-sized higher education institutions worldwide.

Student Management (SM): Thesis SM is a Software-as-a-Service (SaaS) student system engine that integrates with existing campus systems and powers change. It is designed to help colleges and universities modernize and simplify the student experience by improving institutional processes.

Thesis SM supports processes for admissions, academics, financial aid, billing, communications analytics and reporting, and system management. This SaaS solution provides faculty and staff with access to consistent data and helps drive more informed decision-making. From recruitment, admissions, and academics to student records, billing, award management, and continuing education, the system supports the entire student lifecycle.

### Contract Highlights:

- Core Student Information System engine is backed by proven implementation services and world-class support in higher education.
- Offers a focused approach to help members address typical challenges from cumbersome processes and aging systems.
- Streamlines administrative tasks to simplify the student experience.
- Enables you to grow and scale as your institution and student populations evolve.
- Innovative, collaborative company that understands and satisfies the SIS needs of higher education institutions and ever-evolving student needs throughout the U.S.
- With vast technical and analytics expertise, and higher education knowledge, the Thesis team works side-by-side with you to plan, implement, operate, and optimize your technology investment.
