

truly renewable

Even the most durable furniture will start to show wear and tear over time, and chances are your lounge furniture has seen better days.

Replacing or repairing damaged or worn furniture can be costly, but with E&I's new competitively solicited [Transformations Furniture](#) contract, this problem can be a thing of the past!

Transformations offers renewable upholstered lounge furniture that is unrivaled in the marketplace. Now you can replace the furniture fabric and components on-site in minutes. Best of all? No training or special tools are required! Their patented design allows for easy reupholstering and assembling.

Why Choose Our Transformations Contract?

- **Save money!** One single purchase can experience 5-7 life cycles!
- **Save time!** Remove and replace all components in minutes, without tools or training.
- **Preserve the environment!** Transformations' industry-leading warranty proves their commitment to true renewability, preserving your facility and the environment.
- **Enjoy durability & comfort!** Enjoy the comfort of your home furniture with the highest quality of foam, frame and workmanship underneath the fabric.

With over 40 years of expertise in renewability, Transformations meets all the criteria for being a truly renewable company, with their signature patented construction across all product lines.

Are you ready to invest in your furniture's future?
