

Food Service Equipment & Design Solutions by TriMark Strategic

E&I members can rely on TriMark Strategic to provide a full range of food service equipment and services, including products, design and project management.

TriMark offers an unparalleled level of service by combining the hands-on support and local market knowledge of a regional supplier, with the industry expertise and delivery and installation capabilities of a national company. As a full-service dealer, TriMark Strategic provides experienced project managers to guide your project from conception to completion.

From smallwares and capex orders, to major projects and remodels, the TriMark Strategic team provides the comprehensive and seamless solutions critical to a successful food service operation.

For additional details on this contract, please contact Robert Cutler, *Portfolio Support Executive for Diversified Products*, at rcutler@eandi.org. You can also visit us at www.eandi.org.
