

Ellucian Colleague & Unimarket The Perfect Partners for eProcurement

Digital transformation is an imperative for any academic institution with an orientation towards stakeholder satisfaction and value for money.

Streamlining and automating manual process and procedures is a must, and both Procurement and Accounts Payable are near the top of the list at most mid-size colleges and universities.

If you're:

- **A higher education institution,**
- **Running Ellucian Colleague, and**
- **Looking for an easy way to digitally transform procurement**

... then we have the perfect solution.

Unimarket has been an Ellucian partner for more than a decade. In fact, more than 75% of Unimarket customers are running Ellucian products, either Banner or Colleague, while more than 50% of colleges and universities who've licensed our eProcurement solution in the past year are running Colleague.

The reason is simple: Unimarket integrates very easily with Colleague and provides the only single end-to-end solution spanning procurement, invoicing and payment.

Unimarket is especially beneficial if you're currently using Colleague WebAdvisor, have end-users who find Colleague rather challenging, or if you're still dealing with manual procurement processes.

Ease

Marketplace provides users with a familiar online shopping experience.

Automate everything, from requisition generation to approvals.

As a cloud-based solution, there's no software to install and updates are automatic.

Visibility & control

Know how much your users are spending, what they're buying, and from which suppliers.

Upfront requisition approval ensures purchases are authorized before spend is committed.

Forecast with reliable data on historical and committed spend.

Savings

Create buying power by directing spend to preferred suppliers.

Save time and money by cutting out paperwork and automating processes.

Onboard suppliers without the need for time-consuming, point-to-point integrations.

How does eProcurement get *procurement done right* for you?

A shared vision

Unimarket extends the Ellucian Colleague vision of enabling colleges and universities to work faster, smarter, and more efficiently to this best-in-class eProcurement solution.

Unimarket recently upgraded our Colleague Easy Connect integration. We know mid-size colleges and universities often struggle with limited or stretched IT resources – so this upgrade makes it easier and more cost-effective than ever for institutions running Colleague to implement an eProcurement solution that incorporates all the integration points colleges and universities need.

Benefits of Unimarket-Colleague integration at a glance

- **Unimarket is a longstanding Ellucian partner**
- **Provides a modern online shopping experience**
- **A single integration to support procurement, invoicing, and payments**
- **Full integration with many options configurable to your institution:**
 - Real-time budget checks
 - Purchase orders including encumbrances
 - Blanket-orders, change-orders and close-orders
 - Invoices/vouchers
 - Expense reimbursement

Marketplace

Makes it easy for faculty & staff to find and buy the things they need from your preferred suppliers at your negotiated prices.

Procurement

Streamlines the requisition and approval process to ensure spending is authorized before orders are sent to suppliers.

Invoicing

Automates invoice receipt and approval, increasing on-time payment so you can secure discounts and other advantages.

Expenses

Simplifies the creation, submission, approval and payment of expenses reports across the entire organization.

Payments

Converts suppliers to electronic payments, processes ACH and virtual card payments, prints and mails checks.

Contracts

Facilitates central storage and management of contracts with the ability to track spend against each contract.

Sourcing

Makes it quick and easy to coordinate the RFI, RFQ, RFP and bid evaluation process.

“Unimarket is always there for us and we’ve benefited immensely.”

Nick Rose, Lehigh University
