

Bring Your Entire Campus Together with Workday

Workday is a leading provider of enterprise resource planning (ERP) applications, with a fully cloud-native platform developed for higher education. Designed specifically for cloud delivery, Workday enables midsize and large higher education institutions to run more efficiently and effectively by integrating operations, optimizing business processes, and driving collaboration.

Workday is a multi-tenant software-as-a-service (SaaS) solution that is developed, supported, and deployed as one seamless cloud system across all clients. The solution is futureproof, as clients always have the latest version. Workday's single system is comprised of a broad range of flexible, intuitive applications that bring the entire campus together, including:

- **Workday Student:** Covers recruiting, admissions, curriculum, records, advising, financial aid, and student financials. Analyze enrollment and at-risk patterns, engage users with personal messaging.
- **Workday Financial and Grants Management:** Provide a complete view of finances with real-time insights, configurable business processes, built-in controls, reporting, and analytics.
- **Workday Human Capital Management:** Securely manages the talent lifecycle and provides the optimal user experience.
- **Prism Analytics:** Brings internal and external data together under a single security model for more effective, faster decision-making.

Workday is recognized for being quick to implement and easy-to-use, and was named a leader in the Gartner Magic Quadrant for Cloud Core Financial Management Suites for Midsize, Large, and Global Enterprises for three consecutive years.

Workday's ERP applications offer significant benefits, such as:

- **More Time for Strategic Initiatives:** Manages traditional IT-related aspects of your administrative applications so you can focus on other projects
- **Continuous Innovation:** Automated updates ensure you always have the latest version and eliminate the cost and complexity of traditional upgrades
- **Built-in Reporting Tools and Real-time Analytics:** Provide a 360-degree view of the institution, eliminate the need for a data warehouse, enable trend analysis, and help determine resource requirements Mobile-First Design: Convenient access to useful functionality anytime, anywhere
- **One Security Model:** Ensures every user ID is associated with one tenant only. Perimeter defense and network intrusion prevention systems, and an encrypted persistent data store, keep data secure 24/7/365
